Management Lab report

Submitted by

Sharique khan

[RA2011050010092]

Under the Guidance of

Dr. K. ARTHI

Associate Professor, Data Science and Business Systems Department

In partial satisfaction of the requirements for the degree of

BACHELOR OF TECHNOLOGY
in
COMPUTER SCIENCE ENGINEERING
with specialization in Blockchain Technology

**SRM INSTITUTE OF SCIENCE AND
TECHNOLOGY KATTANKULATHUR-603203**

BONAFIDE CERTIFICATE

Certified that this lab report titled **ONLINE CAR RENTAL SERVICE** is the bonafide work done by (RA2011050010092) who carried out the lab exercises under my supervision. Certified further, that to the best of my knowledge the work reported herein does not form part of any other work.

ABSTRACT

Our Project is a fully functioning of online car rental services and it uses It will be made with an authentic state-of-the-art AI algorithm which will have a high accuracy rate. Even though a user must invest with his or her own diligence and research, our forecaster will provide a much needed helping hand. Our project is based on the agile model and the three members of our team are each specialized and equipped with advanced knowledge in their specific fields. One will be designing a smooth, responsive and aesthetic clientside UI to provide a delightful experience for our users. Another one of us is experienced in backend and frontend connectivity which will help in providing fast and seamless data flow from the server to the users to uphold the working of the website.

While the website is being built, the third one of us will be building a secure blockchain and the forecaster algorithm with his weathered knowledge in web 3.0 and AI/ML algorithms.
